EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John D. Veldhuis-Kroieze, Reg. No. 38,354 on July 5, 2006.

The application has been amended as follows:

Claim 18, line 1: Replace "17" with -15--.

The following is an examiner's statement of reasons for allowance: The prior art teaches related disk systems but fail to teach the combination including the limitation of:

Claim 1: "...wherein the virtual track numbers have a non-continuous monotonic order as the head and physical track number pairs are sequentially traversed in the serpentine track accessing format";

Claim 11: "...selecting a modulo M as a function of a maximum number of tracks per physical zone; within each physical zone, assigning each physical track an offset value N sequentially, wherein offset value N is less than or equal to M-1; assigning each physical zone a unique value P which reflects its traversing sequence; and for each physical track, combining its offset value N and the unique value P assigned to its corresponding physical zone to obtain the corresponding unique virtual track number K";

Claim 15: "...by assigning the unique virtual track numbers in a manner which results in the virtual track numbers being in a non-continuous monotonic order as the head and physical track number pairs are sequentially traversed in the serpentine track accessing format".

Claims 4, 6-10, 12-14, 18, and 24-26 are allowed as being dependent upon, and thus incorporating therein the allowable subject matter of the respective claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
